

# Iseo

**Iseo is a jointless Large Plum Tomato for loose and truss harvest with improved shelf life, high quality fruits and high yield potential**

## Disease Profile

HR	ToMV:0-2/ToTV/Pf:A-E/Fol:0,1/For/Va:0/Vd:0
IR	On

## Features

- // AFW 115g (110-120g)
- // Premium plant vigor
- // Great setting ability in heat
- // High yield potential
- // Brilliant glossy fruits

## Advantages

- // High quality fruit with low BER
- // Long fruit shelf life
- // Stable plant habit with vigor to last the season
- // Attractive external glossiness

## Benefits

- // Less waste resulting in more marketable yield
- // Consumer appreciation resulting in repeat purchase
- // Flexibility with loose or truss harvesting

## Agronomics and Cropping Tips

### Environment

- // Heated glasshouse on substrate

### Season

- // Long crop both regular and lit

### Specific advice

- // Adequate watering and Calcium management to minimise risk of BER
- // Starting density 2.5 stems/m<sup>2</sup> going up to 3.7 stems/m<sup>2</sup> maximum in regular crop
