

Sumstar

New early summer leek for production from transplants, plant tape and early drilled cropping

Easy cleaning giving quick and efficient harvest

Upright and uniform shanks with good yield

Dual purpose leek suitable for both pre-pack and loose production

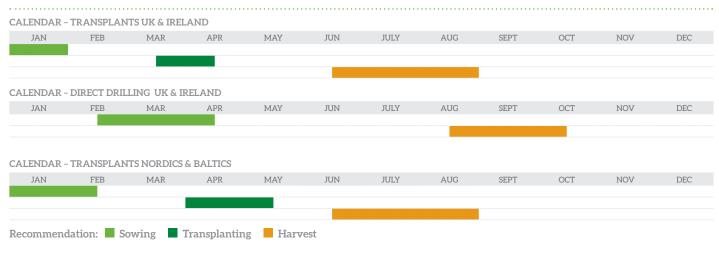

CLASSIFICATION

	•
Crop	Leek
Segment	Early

The new generation of leek varieties from Seminis is coming! The first variety that we have introduced is Sumstar, our rising star for summer cultivation. Sumstar excels in uniformity and gives a high net yield. This variety looks very good in the box due to its darker green colour and straight shank. Sumstar is easy to clean, has good field holding and is suitable for loose and pre-pack production.

Sumstar - our shining star in leek which excels in yield, uniformity and cleaning performance

For further information on programming this variety in your area contact your local Seminis representative
